

INSTRUCTIONS

FotoFrames & Fonts

To install FotoFrames, insert the "FotoFrames & Font" CD into the unit and select "Install Images". It is recommended that you install FotoFrames in the "Advanced" mode and capture by selecting "Create Graphic". FotoFrames will be stored with the systems Graphic Bin. FotoFrames can easily be dragged and dropped over any clip on the Storyboard. FotoFrames can also be imported into the NeoType CG software, where it can be combined with titles or other graphic elements.

As a bonus, this CD also includes 34 fonts (see page 2 for examples of available fonts). To install the Fonts, insert the "FotoFrames & Font" CD into the unit and select "Install Fonts".

Note: It is always recommend to only install those FotoFrames & Fonts that are required for a given project.
