

# DON'T RENDER YOUR LIFE AWAY

## SCREENPLAY EPIC

Fast. Easy. Affordable.

### Easy To Use

ScreenPlay Epic is a reliable, stable and functional editing appliance with drag-and-drop, point-and-click simplicity. This high-powered editing appliance features an intuitive and easy-to-use interface that can be mastered in no time.

### No Rendering

Keep your creativity flowing in real time with no annoying rendering delays to slow you down. ScreenPlay Epic gives you instant edits, transitions, titles, color effects, special effects and more -- all in real time.

### Professional Results

ScreenPlay Epic provides all the tools you will need to achieve professional editing results. It boasts a 400GB hard drive which offers 25+ hours of broadcast quality storage and comes standard with the Gold Pass software package including NeoType CG and Magic Motion.

### Powerful Complete Turnkey

ScreenPlay Epic, the most powerful editor offered by Applied Magic, can be installed in 5 minutes! Just connect ScreenPlay Epic to a monitor or TV, attach an AV source and start editing! ScreenPlay Epic comes with FREE technical support.

### Real Time Input/Output

Easily import composite, S-video and DV-1394 as well as images from Smart Media or Compact Flash cards. Creating a picture-in-picture or photo montage is easy with digital connectivity!

### Real Time Effects

Transform your production with 37+ real time effects at a full 60-fields per second. Special effects include variable slow motions, fast forward/reverse, letterbox, mirror, film rate and more. Color effects include B&W, sepia tone, etch, posterize and more. One-click white balance and video recovery color correction are real time.

### Fully Loaded with Software

#### NeoType CG

Sophisticated CG creates spectacular titles, overlays, lower third graphics, scrolling and crawling all in real-time.

#### Magic Motion

Add motion to your graphics. Rotate, crawl, scroll, zoom and fly in any graphic over a video clip.

#### Pan & Zoom

Zoom in and out, pan up and down, and rotate digital still images, photos and video. Great for photo montages.

#### Magic Audio

Adjust & perfect your audio. Control stereo equalization, speed, echo, noise gate, compression, volume, balance and more.

#### ChromaKey

Replace ANY color background with alternate stills and video footage.

#### LumaKey

Replace an animations black or white matte with alternate stills and video.

#### A/B Roll

Easily edit between two or three cameras on one storyboard.

#### 3D Page Turns

35+ customizable variations of 3D Page Turns and Filters will add interest to any video production.

#### Magic Mattes

A picture-in-picture, transition, frame and matte all in one--without rendering.

### Award-Winning Interface

ScreenPlay Epic's interface has received awards for its intuitiveness, relative design and ease of navigation. Take the user-friendly interface for a test drive to see for yourself just how fast and easy editing can be!
