

Getting Started with the Sequel to ScreenPlay Upgrade

Thank you for choosing to upgrade your Sequel to full ScreenPlay software functionality. This product will enable you to have all the software capabilities of ScreenPlay including transitions, special effects, and color effects.

Obtaining Your Activation Code:

To install the Sequel to ScreenPlay upgrade on your Sequel, you will need to obtain an activation code. In order to do this you must first get your System ID from your Sequel. To do this:

- Start your system and wait for the Editor screen to appear.
- Right mouse click in the preview screen.
- Click on About ScreenPlay in the pop-up menu.
- An information pop-up will appear. Your System ID will be the last line in this pop-up. This number will be thirteen characters in length and will contain both numbers, 0-9, and letters, A-F. Use the boxes below to record your System ID.

Installing the Software:

- Place the software disk in the CD compartment on the front of the unit.
- When the software installation menu appears on-screen, select Install Upgrade.
- Enter your activation code in the pop-up window that appears and click on Okay.
- The system will install the upgrade.
- After the installation is completed, the software installation menu will re-appear on your screen and you will be ready to install the Software Extras.

Installing the Software Extras:

- From the software installation menu, select Install Extras.
- Select Install Transitions.
- Choose the transitions you wish to install or click Install All to install all of the transitions.
- Repeat the process for Special Effects and Color Effects.
